

THE KEY

1965

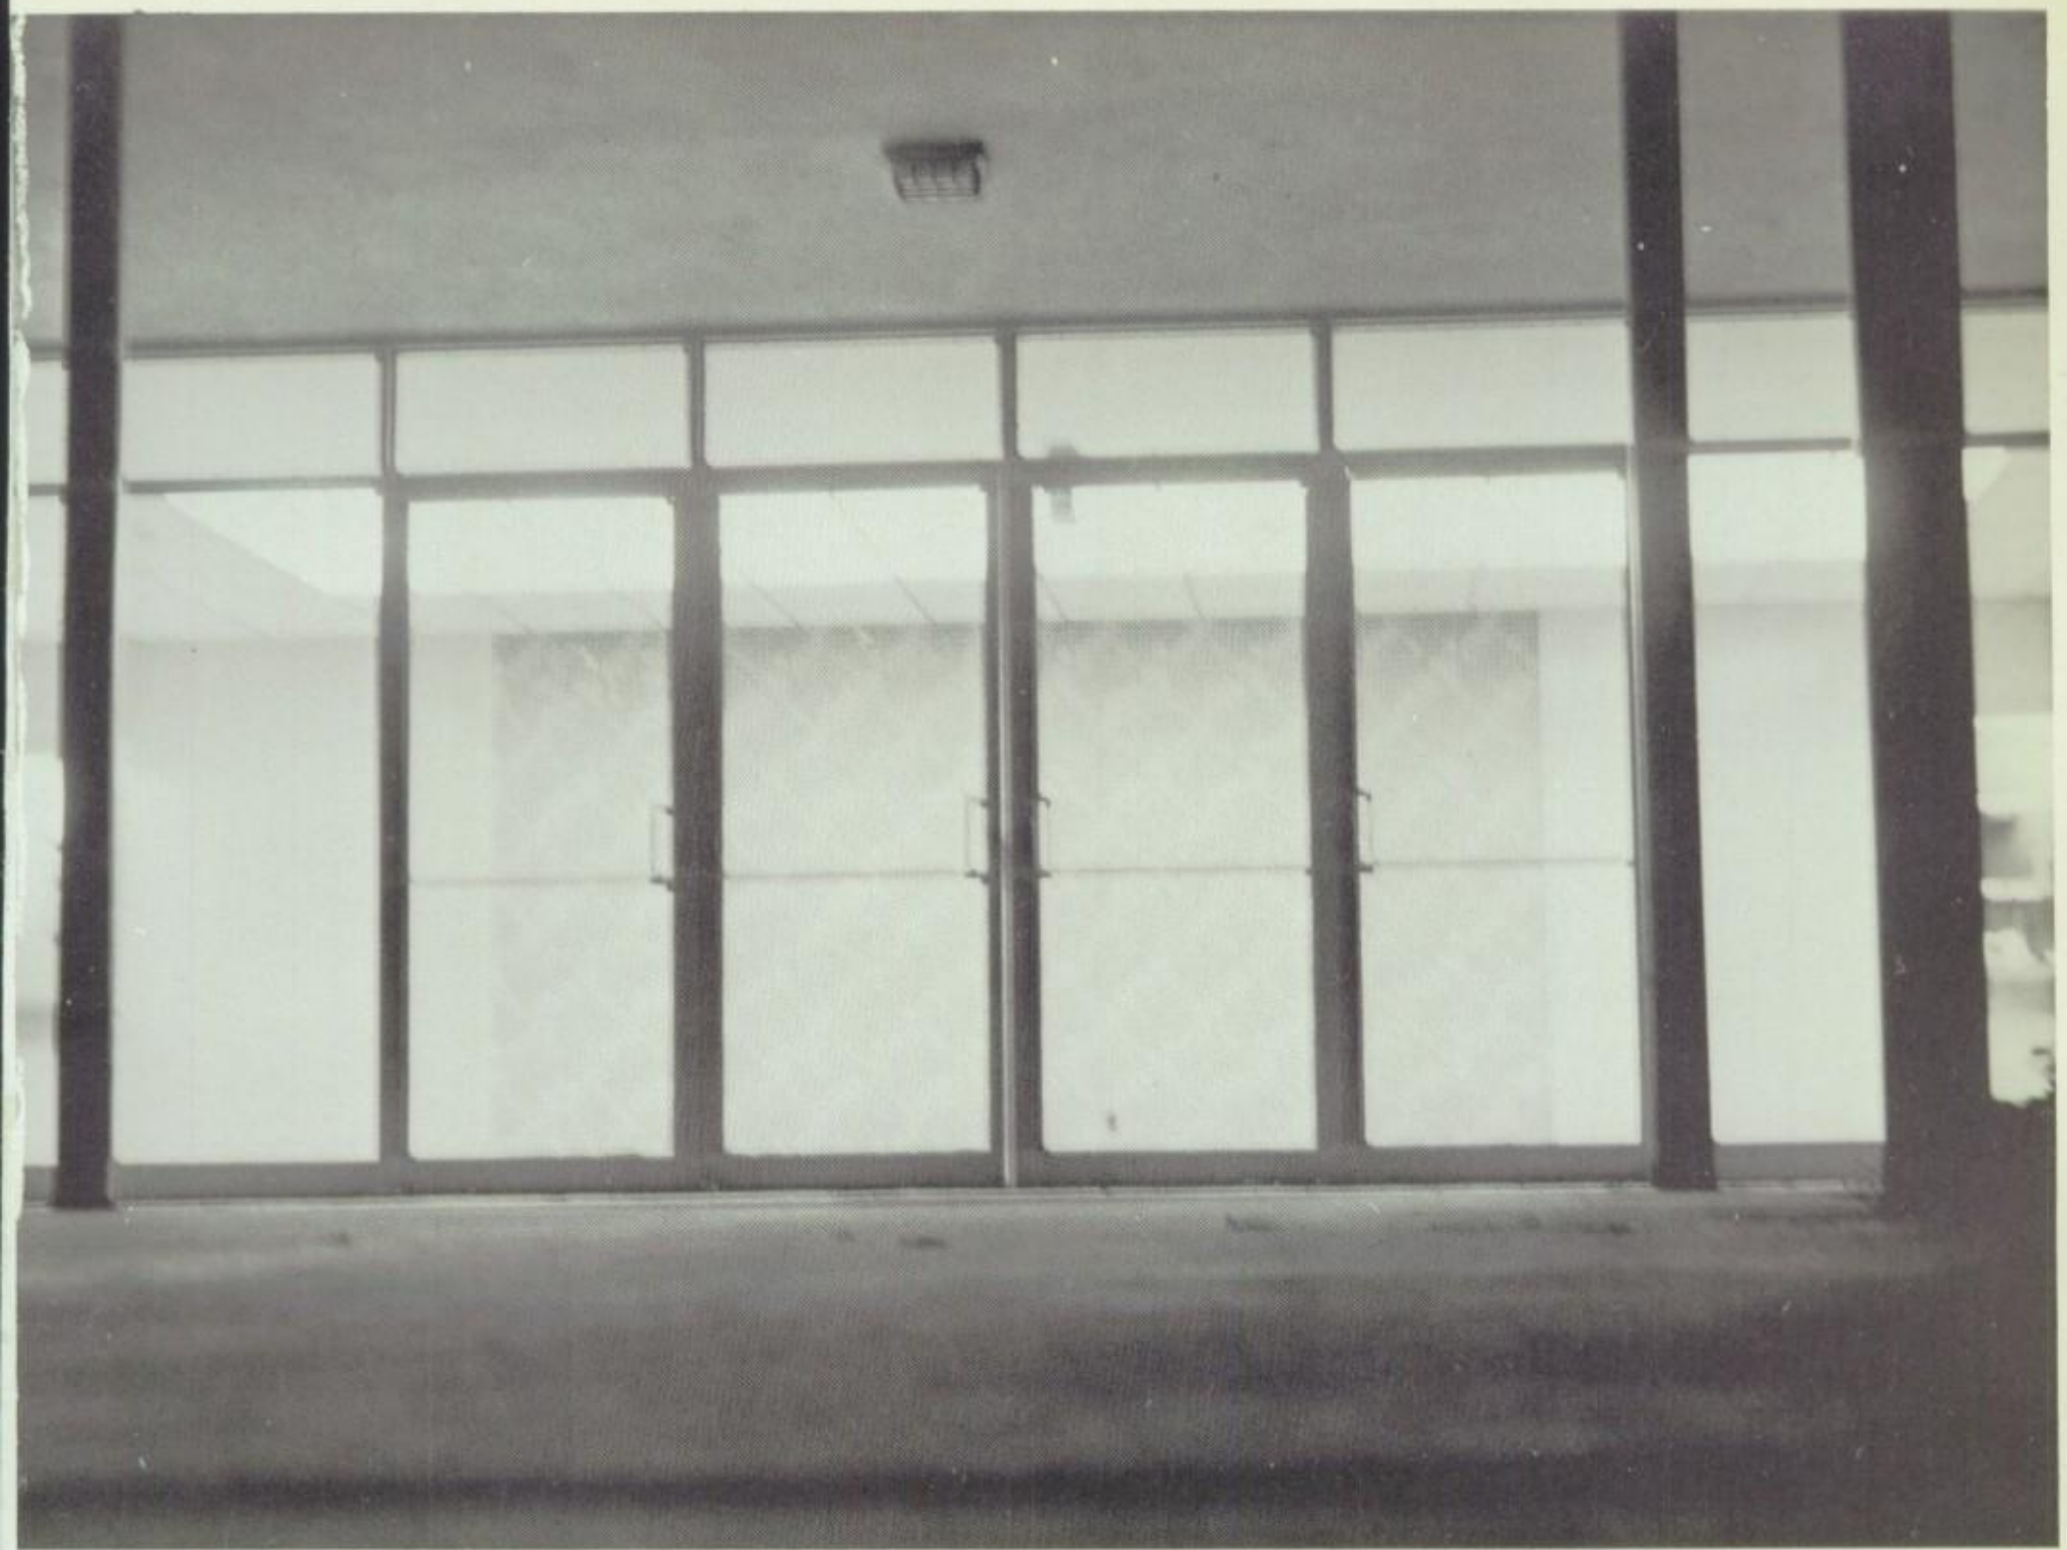

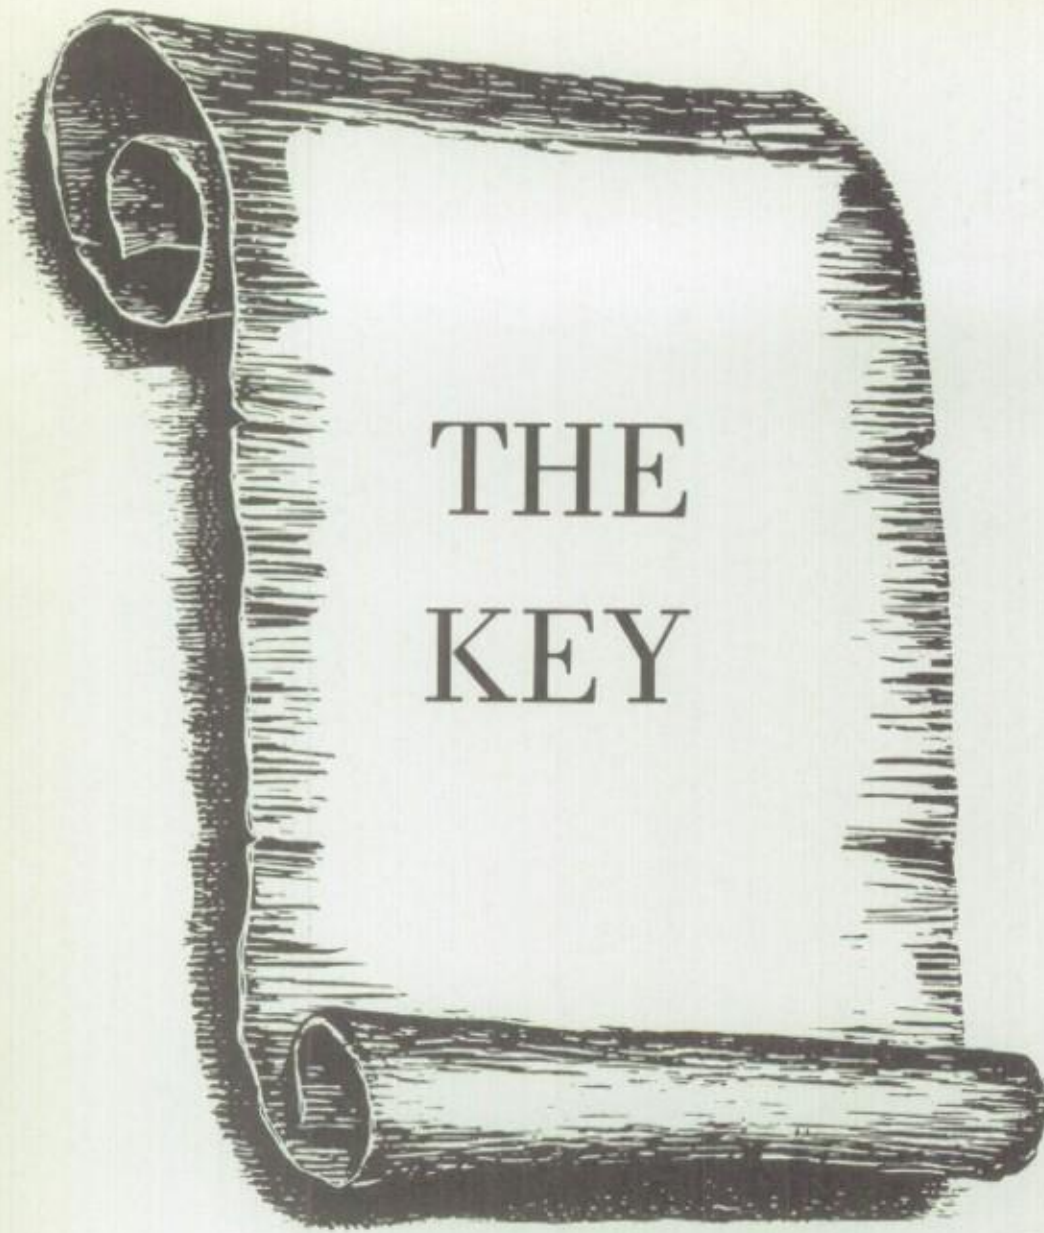

As we leave Northwestern, we find that there are many memories which we would like to keep in our thoughts for many years to come. In this edition of THE KEY we have tried to capture the highlights of the year. The knowledge we have gained and the experiences which we have had, we hope, will guide us in the future.

MR. ROLAND BAILLARGEON

## Dedication

We dedicate this yearbook to Mr. Baillargeon because of his fine example to us as students. The attributes which impressed us most were his ability to command respect, his sincere concern for our achievements as people, and his calm understanding. Our only regret is that future classes will not have the experiences working with him as we have had.

The Graduating Class

# Principal's Message

The most familiar words associated with your achievement of graduating are diploma and permanent record. The dictionary says that a diploma is a document conferring a privilege, honor, or power. It may come as something of a shock when you discover how little power it does give you. It will make it possible for you to be considered for certain jobs or further study. Whether you are seriously considered will depend on the record you made in earning the diploma.

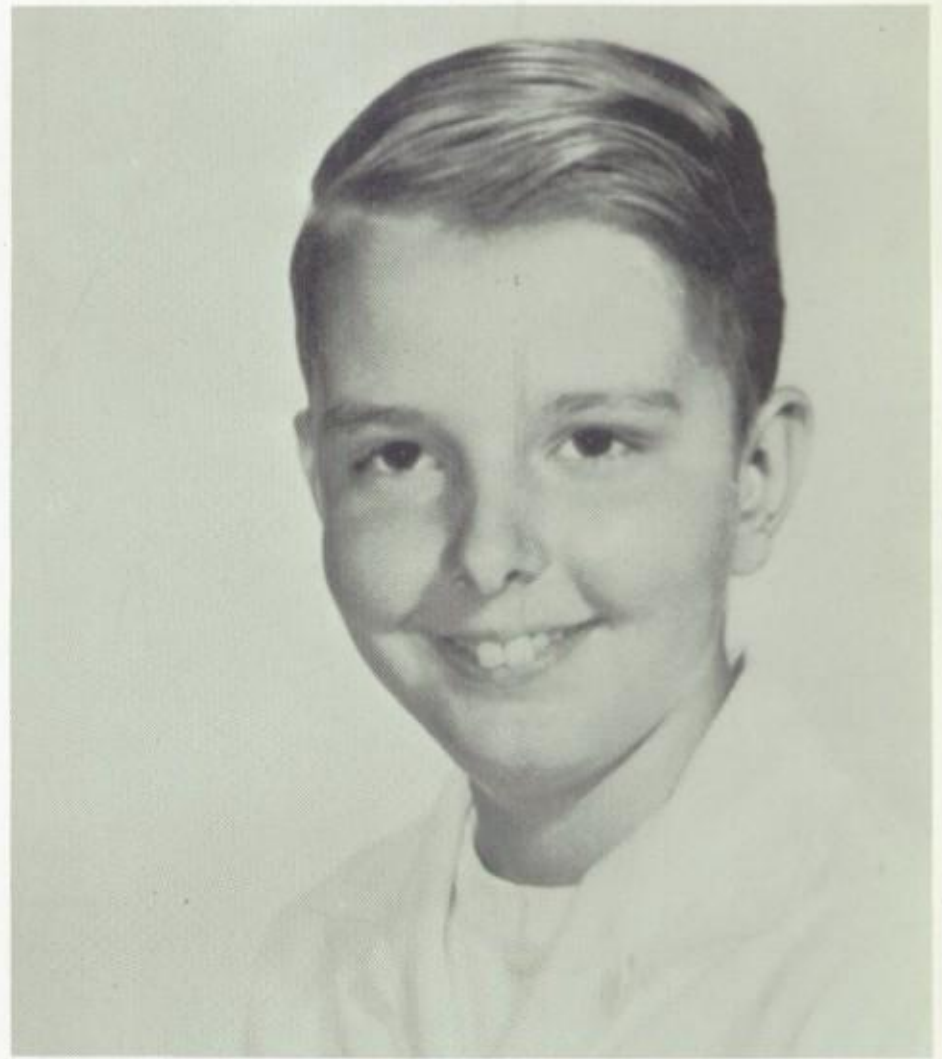

The permanent record will tell how many challenges you accepted and fulfilled creditably. It will show a comparison with your classmates in academic achievement. It will record your attendance record, the first thing employers ask about.

Because there is no truly objective way to record the information, there is little information about such very important things as the impression you left about your honesty, integrity, consideration for others, school citizenship and other personal characteristics.

As you go through life making a more complete record, I am sure you will find that the degree of esteem which your fellow men have for you will be determined largely by these personal qualities which everyone can achieve to a high degree. Moral muscle is built by setting high personal standards and living up to them.

## ***Now...Things become more serious***

From now on, you will be expected to make more and more of your own decisions. And as you take over the direction of your own future... plan your higher education, help your dependents and eventually, provide for your own family, you will find that others will come to depend upon your judgment. Some of you will go on to become the leaders of our state and our country.

This is what is meant by "success". It is achieved by accepting all of the responsibilities you can handle. It will be our privilege to help you meet the financial responsibilities of your family and your business in the years to come.

If a reed can survive the cold

it can live in a world of its own.

It can worship the god of eternity

and scorn the goddess alone.

Like a star in the sky, it will glow

and shed a heavenly hue

on the false society hidden

in a tarnished silver dew.

It will live in a platinum shell

to avoid being blackened by talk

while society cries out for joy

when the reed is auctioned for mock.

The sky will darken and freeze

and the reed will shiver with cold

but its warmth will flicker and grow

and burn the society bold.

It will grin and smile and laugh

at the ashes that fell on the ground

and the star will turn to a blaze

while the heavens will ring out with sound.
